# SITEMASTER THE ONE MACHINE FLEET

The ICX is an agile, compact machine that can tackle the toughest jobs without compromise on performance.

SC150

#### SITEMASTER OF MANOEUVRABILITY

The compact dimensions of the ICX enable it to fit through confined spaces, including doorways, and makes it easily transportable.

#### SITEMASTER OF PERFORMANCE

The excavator can slide across the rear frame minimising machine repositioning and providing better visibility when digging in off-centre positions.

## SITEMASTER OF POWER & EFFICIENCY

A powerful engine is installed into this compact, agile machine, which together with their loading and digging capabilties enable them to tackle the toughest jobs.

## SITEMASTER OF COMFORT

The Sitemaster cab and canopy are designed for operator protection, and for day-long operator comfort with ergonomic and intuitive controls.

# SITEMASTER OF VERSATILITY

The JCB ICX compact excavator loader is one of the most versatile machines in the world. By combining an excavator and loader you get two machines in one.

# ICX

The JCB ICX comes as standard with a skid-steer quick hitch, 45 litres/minute hydraulics and a 2.55m fixed dipper, offering skid steer and excavator performance in one package.

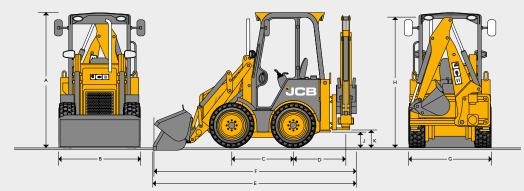

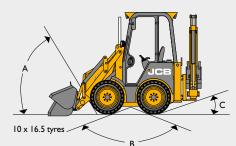

# **ICX PLUS**

The ICX PLUS has added features as standard, including a cab with air conditioning for added operator comfort, and a 3.08m extending dipper, providing improved reach and dig depth.
